

Frigo-Consulting
Switzerland / Spain / Italy / Romania / Poland

Frigo-Consulting is the leading independent engineering company for refrigeration and a global leader in CO₂ technology. We keep our finger on the pulse of trends, help to develop technological innovations, redefine the latest technology and offer our clients solutions which set standards in efficiency, effectiveness and sustainability.

To support and expand our international existing project team we are looking for a Technical qualified and motivated

CUSTOMER ACCOUNT/PROJECT MANAGER (f/m) REFRIGERATING SYSTEMS POLAND

Wherever refrigeration is required on a large scale, a richly varied activity awaits you with interesting projects and development opportunities in an international business environment.

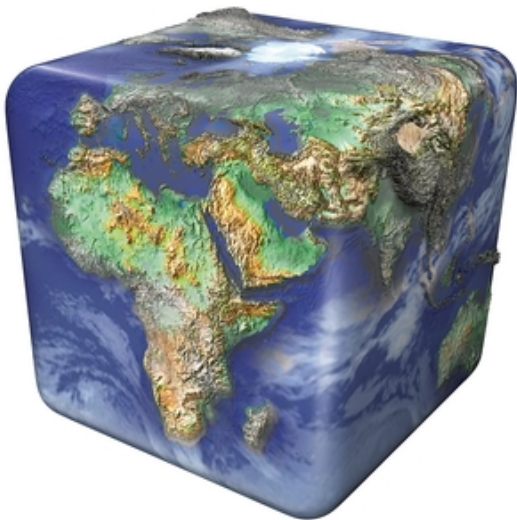

For this challenging and interesting task, you must be customer oriented, sales driven and have access to a wide network. A higher professional qualification as an engineer or equivalent would be appreciated. You have acquired a broad experience in industry and/or commercial refrigeration, ideally with natural refrigerants. You are well-organised, strong on ideas and appreciate contacts with people at all levels of the hierarchy and drawn from different cultural backgrounds. You must have a good knowledge of English and/or German and should be keen on EDP. Strong organising abilities, good communication skills and an entrepreneurial approach complete your profile. Your workspace is situated in Warsaw.

If you see your professional future as an autonomous and committed person in an innovative

enterprise, please send your application documents to Mr. Marcus Hoepfl, Frigo-Consulting International Ltd., Feldstrasse 30, P.O. Box 240, 3073 Guemligen Bern or to m.hoepfl@frigiconsulting.ch.

Phone No. for further information: +41 31 996 48 48.

Our most valuable asset:

Our independence
